Introduction

In all organizations, the Human Resource is the greatest expense, so it is important that the administration of Compensation and Benefits is of the highest quality. Well, trained Remuneration staff are able to monitor the systems in place and add a strategic perspective.

This exciting new program looks at the basic building blocks of effective benefits administration and then goes on to explore the Strategic dimensions - how the whole process can add "value for money" and help the organization achieve its objectives.

The Strategic dimension will focus on the current strategic issues facing organizations today - how to design strategy to cope with change in the societal setting and how to cope with change in the organizational context. We will look at the question of how organizations can encourage participation and engagement and still achieve organizational objectives and profitability.
