Training Course: Investment Management & Analysis

Training Course code: MA234691 From: 15 - 26 July 2024 Venue: Casablanca (Morocco) - New Hotel Training Course
Fees: 6800 € Euro

Introduction

Never before have financial issues been so often being the headline news. It is therefore crucial that today's business professionals expand their financial knowledge to allow them to contribute to daily decisions and debates.

This course is designed specifically for non-financial personnel; this intensive Training course educates and informs delegates of the key financial analysis markets/products/risks and hazards.

Training Course Objectives of Investment Management & Analysis

The training course provides delegates with the tools required to find better answers to questions such as:

- What are the major market indices and how are they linked?
- What is meant by a dual listing?
- How is a forward rate determined?
- Can I profit from interest differentials?
- What is the role of correlation in reducing risk?
- How do I judge whether my performance in the market is good or bad?
- What are futures and options?
- How can futures and options be used to protect the value of my portfolio?
- What is meant by spread trading?
- What is the role of bonds in a portfolio?
- The difference between fundamental and technical analysis.
- What are the Active and Passive Investing?
- The Risk-adjusted return measures.
- What are Style analysis and performance attribution?

Training Course Methodology of Investment Management & Analysis

Using a combination of lectures and individual exercises with practical applications, the delegates will gain both theoretical and practical knowledge of the topics covered. The emphasis is on the "real world" and as a result, delegates will return to the workplace with both

the ability and the confidence to apply the techniques learned.

Organizational Impact of Investment Management & Analysis

This training course provides an integrated blending of concept and practical application. As well as developing subject knowledge delegates will return with enhanced quantitative and technical skills. Advanced Excel skills are increasingly a prerequisite for financial analysis. Delegates will return to the organization with great exposure to the power of Excel.

Personal Impact of Investment Management & Analysis

Delegates will acquire detailed knowledge about the trading, pricing, and risk management associated with a variety of financial products. The practical and real-world approach will provide delegates with a “tool-box” to bring back to the organization to assist in the analysis of financing, treasury, and risk management decisions
