Training Course: Real Estate and Property Management

Training Course code: MA12328 From: 15 - 26 September 2024 Venue: Amman (Jordan) - Chemisty Training Course
Fees: 5200 € Euro

Introduction

Real estate and property management teach you effective ways to manage, administer and sell property owned by another party or entity. Professionals may handle all aspects related to a property, from finding potential buyers, maintaining house integrity, or making sure tenants respect their contractual obligations. Managed properties include residential and vacation properties, commercial retail space or industrial warehouse space. The real estate and property management discipline deals with four major areas: marketing and financial aspects, tenant and occupancy, facilities of the property, and administration and risk. Real estate and property management integrate theories from other disciplines like accounting, finance, business administration, and strategic management.

Course Objectives:

By undertaking this course you will learn about:

- The workings of the commercial property market and its relevance to national and international financial and investment markets
- Advanced current investment and appraisal techniques
- Legal, economic, planning, technical and facilities management factors in property management decision making
- IT in the property industry
- Environmental considerations of real estate development and management

Target Audience :

- Real estate professionals who want to break into the real estate investing and commercial real estate private equity field
- Property managers who want to move into the investment and strategy side of the real estate business
- Landlords and commercial property owners who want to maximize the value of their real estate portfolio

Course Outlines:
