Training Course: Principles of User Experience and User Interface Design (UI/UX)

Training Course code: IT235122 From: 22 - 26 July 2024 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 5775 € Euro

Introduction:

Technology and software companies require interactive and well-designed user experiences for their websites and digital applications. Achieving this requires experts in User Experience UX and User Interface UI design. Through the Principles of User Experience and User Interface Design course, designers and developers can learn the fundamental concepts and skills needed to design user experiences and interfaces that meet customer needs and enhance their experiences.

Objectives:

- Provide participants with a comprehensive understanding of UX and UI design concepts.
- Educate participants on core design skills and necessary techniques for creating effective user experiences.
- Familiarize participants with methods for validating the effectiveness of their designs in achieving goals.
- Improve personal and leadership skills of participants to enhance the effectiveness of UX design and streamline execution processes.

Target Audience:

- Web and digital application designers.
- Web and digital application developers.
- Digital product managers.
- Project managers in technology and software companies.

Outlines:

Day 1:
