## Training Course: Foundations of Data and Models

Training Course code: IT234951 From: 4 - 8 November 2024 Venue: London (UK) - Landmark Office Space - Oxford Street  
Training Course Fees: 5775 € Euro

### Introduction:

The "Foundations of Data and Models: Regression Analytics" training program is designed to provide participants with a solid understanding of the fundamental concepts and techniques used in regression analysis. The program will cover the theory and practical applications of various regression models, including linear and nonlinear regression, as well as advanced techniques such as regularization and model selection.

### Objectives:

- Understand the theory and assumptions underlying different types of regression models
- Learn how to fit, interpret, and evaluate regression models using real-world data
- Gain hands-on experience with popular software tools for regression analysis
- Develop the ability to critically evaluate the assumptions and limitations of regression models
- Learn how to use regression models to make predictions and draw inferences about relationships between variables

### Target Audience:

This program is intended for professionals who are interested in learning more about regression analysis, including data analysts, statisticians, data scientists, and researchers.

### Outline:

#### Day 1:

##### Introduction to Regression Analysis

- Overview of the course and the concepts of regression analysis
- Simple linear regression
- Assumptions and limitations of linear regression

#### Day 2:

##### Multiple Linear Regression

- Multiple linear regression
- Interaction terms and polynomial regression
- Model selection and evaluation

Day 3:

#### Nonlinear Regression

- Nonlinear regression
- Logistic regression
- Generalized linear models

Day 4:

#### Advanced Regression Techniques

- Regularization techniques Ridge, Lasso, Elastic Net
- Model selection and evaluation

Day 5:

#### Applications and Case Studies

- Hands-on exercises using real-world data
- Use of regression models in different fields
- Interpretation and drawing inferences from regression models

## Registration form on the Training Course: Foundations of Data and Models

**Training Course code:** IT234951 **From:** 4 - 8 November 2024 **Venue:** London (UK) - Landmark Office Space - Oxford Street **Training Course Fees:** 5775 € Euro

Complete & Mail or fax to Global Horizon Training Center (GHTC) at the address given below

### Delegate Information

Full Name (Mr / Ms / Dr / Eng): .....

Position: .....

Telephone / Mobile: .....

Personal E-Mail: .....

Official E-Mail: .....

### Company Information

Company Name: .....

Address: .....

City / Country: .....

### Person Responsible for Training and Development

Full Name (Mr / Ms / Dr / Eng): .....

Position: .....

Telephone / Mobile: .....

Personal E-Mail: .....

Official E-Mail: .....

### Payment Method

- Please find enclosed a cheque made payable to Global Horizon
- Please invoice me
- Please invoice my company

### Easy Ways To Register

Telephone:  
+201095004484 to  
provisionally reserve your  
place.

Fax your completed  
registration  
form to: +20233379764

E-mail to us :  
info@gh4t.com  
or training@gh4t.com

Complete & return the  
booking form with cheque  
to: Global Horizon  
3 Oudai street, Aldouki,  
Giza, Giza Governorate,  
Egypt.
