Impact of Technology Innovation & New Business  
Models on Supply Chains*

*18 - 22 November 2024  
London (UK)  
Landmark Office Space - Oxford Street*

## Training Course: Impact of Technology Innovation & New Business Models on Supply Chains

Training Course code: MA234629 From: 18 - 22 November 2024 Venue: London (UK) - Landmark Office Space  
- Oxford Street Training Course Fees: 5250 € Euro

### Introduction

Growing overseas require access to markets, capital, and competitive differentiation. In the context of Asia, suppliers are usually much less technologically sophisticated compared to their overseas buyers in major world markets. As new technologies transform business models and automate business processes, traditional supply chains in sourcing, manufacturing, distribution, and logistics are being affected, with clear threats of disintermediation.

### Course Objectives of Technology Innovation & New Business Models on Supply Chains

This course will provide frameworks for analyzing technology impacts on business, and examine key trends in new technologies and how these will impact supply chains. Group project work will involve brainstorming on transforming company supply chains through implementing new technologies and business models at a strategic and operational level

At the end of the course, participants will learn:

- The transformative and disruptive potential of new technology developments
- Apply technology at strategic and operational levels of supply chain
- Understand the potential of shared services and platforms to create a competitive advantage
- Create a roadmap for using technology as an enabler and a differentiator

### Who Should Attend

Senior Management, Senior Managers, Managers, and corporate executives on a management track
