Training Course: Product Environment

Training Course code: SC235079 From: 11 - 15 November 2024 Venue: Kuala Lumpur (Malaysia) - Royale Chulan Kuala Lumpur Training Course Fees: 5445 € Euro

Introduction:

This training program on Product Environment has been designed by Global Horizon to provide professionals with the knowledge and skills required to understand and manage the environment in which a product operates. The program is designed to equip participants with the tools and techniques to identify and mitigate environmental risks associated with the product, ensuring that it is compliant with relevant regulations and standards.

Objectives:

- Understand the concept of product environment.
- Learn how to identify environmental risks associated with the product.
- Develop strategies to mitigate environmental risks.
- Understand the regulatory requirements and standards related to product environment.
- Develop skills to manage the product environment throughout its lifecycle.

Target Audience:

This program is suitable for professionals who are involved in the design, development, manufacturing, and distribution of products, such as product managers, engineers, quality managers, supply chain managers, and environmental health and safety EHS professionals. The program is also ideal for those who wish to enhance their knowledge and skills in product environment management.
