Course Summary of Strategic Buyer MBA

This intensive program begins with a week focused on the core topics of an MBA including management of people, leading teams, strategic planning, negotiation skills development and the creation of operational excellence. The second week will be devoted entirely to the specialty of international buying techniques and best practices. Effective international buying is essential to the success of the modern business, government and military supply chain management operation. This program will focus on the best practices for locating, utilizing and managing global suppliers. Techniques for improving supplier performance, lowering prices, improving quality, shortening

lead times, reducing inventory levels and eliminating unnecessary costs will also be carefully considered. In addition, we will also examine the impact of the internet on global buying activities. The main goal of this program is to improve personal management effectiveness as well as organizational performance. A prime objective is that you will leave the program with new ideas you can implement.
