

*Training Course:  
Energy Management System (BS EN 16001/ISO  
50001)*

*12 - 16 August 2024  
Milan (Italy)*

## Training Course: Energy Management System (BS EN 16001/ISO 50001)

Training Course code: EW6041 From: 12 - 16 August 2024 Venue: Milan (Italy) - Training Course Fees: 6300 € Euro

### Introduction

Energy and Carbon Management are now seen as essential aspects of successful organizational management. The use of energy resources is fundamental to our outcomes, however often little time is given to its management and control even though the pressures are ever-present to reduce organizational costs and usage of resources plus minimization of perceived environmental impact.

Energy Management, on a day-by-day basis, is neither overly complex nor difficult once the necessary practices and methodologies, suitable for the organization, have been learned and applied.

- Understand the process of Energy Management
- Learn about the International Energy Management Standard ISO 50001
- Reduce operational costs, Carbon footprint, and Environmental Impact
- Network with others wishing to take control of this aspect of their organization
- Learn from an international Energy Management practitioner

### Course Objectives of Energy Management System BS EN 16001/ISO 50001

The objectives of this course can be summarised as follows:

- To understand where energy resources come from
- To identify energy "Waste"
- To gain expertise in managing the resource once it comes on site
- To enroll all organizational colleagues in the day to day management of energy resources
- To demonstrate to all parties Customers and Suppliers the best practices being carried out

### Course Benefits of Energy Management System BS EN 16001/ISO 50001

- A developed ability to identify and prioritize energy wasteful activities and practices
- A developed understanding of the contribution that can be made by every member of staff at ALL levels
- An ability to gather, process and analyze data and relate it to other aspects of organizational levels of activity
- An ability to develop and project management solutions that will enhance organizational performance
- Improved individual managerial performance and expertise
