Training Course: Digital Transformation

Training Course code: SC235033 From: 28 April - 2 May 2024 Venue: Amman (Jordan) - Chemisty Training Course Fees: 3575 € Euro

Introduction

This training program aims to help leaders and organizations understand and leverage digital technologies to drive innovation, improve customer experience, and stay competitive in a rapidly changing digital landscape. Participants will learn how to assess their digital maturity, identify and prioritize digital opportunities, build a digital culture and mindset, and implement and sustain digital transformation initiatives. The program will use a combination of theoretical concepts, practical tools, and experiential activities to help participants apply digital transformation skills in their work and personal lives.

Objectives

By the end of this training program, participants will be able to:

- Understand the impact of digital technologies on organizations and society
- Assess their digital maturity and identify digital opportunities
- Build a digital culture and mindset
- Implement and sustain digital transformation initiatives effectively
- Navigate ethical, legal, and social issues related to digital transformation

Target Audience

This training program is designed for leaders at all levels, including executives, managers, supervisors, team leaders, and entrepreneurs, who want to enhance their digital transformation skills and drive innovation in their organizations.

Outlines:

Day 1:

Understanding the Impact of Digital Technologies on Organizations and Society

- Overview of digital transformation and its drivers
- Trends and innovations in digital technologies
- The impact of digital technologies on organizations and society

Day 2:
