Training Course: Labour Economics for Development

Training Course code: SC234949 From: 2 - 6 December 2024 Venue: Kuala Lumpur (Malaysia) - Royale Chulan Kuala Lumpur Training Course Fees: 5775 € Euro

Introduction:

The program is designed to provide participants with a theoretical and empirical understanding of labor market issues in developing countries, with a focus on microeconomic aspects of labor markets and labor market policies. Topics covered in the program include labor demand and supply, labor market dynamics, and labor market policies. Participants will learn how to critically evaluate research studies, and design their own studies in the field of labour economics for development.

Objectives:

- Understand the key concepts and theories related to labor economics and its application to development
- Learn about the microeconomic aspects of labor markets and labor market policies in developing countries
- Understand the importance of labor market policies for economic development
- Learn how to design and conduct research studies in labor economics for development

Target Audience:

The program is designed for professionals with an interest in labor economics and its application to development, including:

- Researchers and academics
- Graduate students
- Policymakers and government officials
- Professionals working in international development organizations
- Professionals working in the private sector with an interest in labor markets and development
