

*Training Course:  
Cloudera Certified Associate (CCA) Data Analyst*

*22 July - 2 August 2024  
Barcelona (Spain)  
Grupotel Gran Via 678*

## Training Course: Cloudera Certified Associate (CCA) Data Analyst

Training Course code: IT234731 From: 22 July - 2 August 2024 Venue: Barcelona (Spain) - Grupotel Gran Via 678 Training Course Fees: 9240 € Euro

### Introduction

This Certified Associate CCA Data Analyst Training course will teach you to apply traditional data analytics and business intelligence skills to big data. This course presents the tools data professionals need to access, manipulate, transform, and analyze complex data sets using SQL and familiar scripting languages. Advance Your Ecosystem Expertise Apache Hive makes transformation and analysis of complex, multi-structured data scalable in Cloudera environments. Apache Impala enables real-time interactive analysis of the data stored in Hadoop using a native SQL environment. Together, they make multi-structured data accessible to analysts, database administrators, and others without Java programming expertise.

### Course Objectives of Cloudera Certified Associate CCA Data Analyst

Throughout this training course participants will get to know:

- How the open source ecosystem of big data tools addresses challenges not met by traditional RDBMSs
- Using Apache Hive and Apache Impala to provide SQL access to data
- Hive and Impala syntax and data formats, including functions and subqueries
- Create, modify, and delete tables, views, and databases; load data; and store results of queries
- Create and use partitions and different file formats
- Combining two or more datasets using JOIN or UNION, as appropriate
- What analytic and windowing functions are, and how to use them Store and query complex or nested data structures?
- Process and analyze semi-structured and unstructured data
- Techniques for optimizing Hive and Impala queries
- Extending the capabilities of Hive and Impala using parameters, custom file formats and SerDes, and external scripts
- How to determine whether Hive, Impala, an RDBMS, or a mix of these is best for a given task?

### Target Audience of Cloudera Certified Associate CCA Data Analyst

This course is designed for:

- Data analysts
- Business intelligence specialists
- Developers
- System architects
- Database administrators

### Prerequisites of Cloudera Certified Associate CCA Data Analyst

Some knowledge of SQL is assumed, as is basic Linux command-line familiarity. Prior knowledge of Apache Hadoop is not required.

## Course Outline for Cloudera Certified Associate CCA Data Analyst

### Day 1

#### Apache Hadoop Fundamentals

- The Motivation for Hadoop
- Hadoop Overview
- Data Storage: HDFS Distributed Data Processing: YARN, MapReduce, and Spark
- Data Processing and Analysis: Hive, and Impala
- Database Integration: Sqoop \_Other Hadoop Data Tools
- Exercise Scenario Explanation

### Day 2

#### Introduction to Apache Hive and Impala

- What Is Hive?
- What Is Impala?
- Why Use Hive and Impala?
- Schema and Data Storage Comparing Hive and Impala to Traditional Databases
- Use Cases

### Day 3

#### Querying with Apache Hive and Impala

- Databases and Tables Basic Hive and Impala Query Language Syntax
- Data Types
- Using Hue to Execute Queries
- Using Beeline Hive's Shell
- Using the Impala Shell

### Day 4

#### Common Operators and Built-In Functions

- Operators
- Scalar Functions
- Aggregate Functions

#### Data Management

- Data Storage
- Creating Databases and Tables
- Loading Data
- Altering Databases and Tables
- Simplifying Queries with Views
- Storing Query Results

### Day 5

## Data Storage and Performance

- Partitioning Tables
- Loading Data into Partitioned Tables
- When to Use Partitioning
- Choosing a File Format
- Using Avro and Parquet File Formats

## Day 6

### Working with Multiple Datasets

- UNION and Joins
- Handling NULL Values in Joins
- Advanced Joins

### Analytic Functions and Windowing

- Using Common Analytic Functions
- Other Analytic Functions
- Sliding Windows

## Day 7

### Complex Data

- Complex Data with Hive
- Complex Data with Impala

### Analyzing Text

- Using Regular Expressions with Hive and Impala
- Processing Text Data with SerDes in Hive
- Sentiment Analysis and n-grams

## Day 8

### Apache Hive Optimization

- Understanding Query Performance
- Bucketing
- Hive on Spark

### Apache Impala Optimization

- How Impala Executes Queries
- Improving Impala Performance

## Day 9 & 10

### Extending Apache Hive and Impala

- Custom SerDes and File Formats in Hive
- Data Transformation with Custom Scripts in Hive
- User-Defined Functions
- Parameterized Queries

#### Choosing the Best Tool for the Job

- Comparing Hive, Impala, and Relational Databases
- Which to Choose?

## Registration form on the Training Course: Cloudera Certified Associate (CCA) Data Analyst

Training Course code: IT234731 From: 22 July - 2 August 2024 Venue: Barcelona (Spain) - Grupotel Gran Via 678 Training Course Fees: 9240 € Euro

Complete & Mail or fax to Global Horizon Training Center (GHTC) at the address given below

**Delegate Information**

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

**Company Information**

Company Name: .....  
 Address: .....  
 City / Country: .....

**Person Responsible for Training and Development**

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

**Payment Method**

- Please find enclosed a cheque made payable to Global Horizon
- Please invoice me
- Please invoice my company

**Easy Ways To Register**

Telephone:  
+201095004484 to  
provisionally reserve your  
place.

Fax your completed  
registration  
form to: +20233379764

E-mail to us :
