### Introduction

It has been said that all business is a conversation and that it is the ability of people at all levels in an organization to create and maintain a rich conversation with each other and with other businesses that ultimately create business success. That "conversation" relies on excellent communication skills. The best and most charismatic leaders are abundantly skilled communicators, able to coordinate and lead their teams because they create an environment in which others genuinely want to work. The best and most skilled coordinators are able to manage time, people and priorities, influence at all levels, and still display a sense of leadership which makes others want to follow them.

### Course Objectives of Communication, Coordination & Leadership

By the end of the program delegates will:

- Have raised their self-awareness to understand their strengths and skills gaps as leaders and coordinators

### Course Process of Communication, Coordination & Leadership

Throughout the course, we use accelerated learning techniques to aid learning and foster recall. Our methodology incorporates forums, business games, small group activities, reflective periods, facilitated plenary discussions and presentations. The focus is very much on experiential learning - by engaging all their senses, delegates are able to learn more effectively. Everything the delegates learn will be based on proven principles and leading-edge theories drawn from a range of disciplines, including psychology, management and leadership best practice, NLP, anthropology, and linguistics. Many of the activities will allow delegates to share their real working experiences and thus learn from each other.

### Course Benefits of Communication, Coordination & Leadership

Delegates will develop enriched communication skills which they can use both in their working and personal lives. They will understand at a deep level the need for and practical skills of, the effective coordinator and charismatic leader.

### Course Results of Communication, Coordination & Leadership

Tradition has it that leadership comes from a hierarchical position. In reality, leadership is more a reflection of mindset, and natural leaders will emerge at all levels of an organisation. Delegates returning from this course will

have developed an understanding of the mindset of the effective leader and learned practical techniques to develop their coordination and leadership skills back in the workplace. Effective leadership and coordination boost workplace morale and spawn productivity. Whether or not the delegates are considered "leaders" within their organizational hierarchy, their ability to coordinate events, people and projects will have a significant impact on the productivity of both of the delegates and of their teams.
