Alexandria (Egypt)

Training Course:
The Security Officer Development Programe

Training Course code: HE8217 From: 12 - 16 May 2024 Venue: Alexandria (Egypt) - Training Course Fees: 4345 ⬭ Euro

Introduction

Security Officers are professionals who work in a variety of organizations and with diverse groups of people. As such, they require the necessary skills and knowledge to enhance both personal and organizational performance. As quickly as the world and its continents change and develop, so do risks and threats of dealing with people of this world. Organizations can no longer view security departments and employees as lower-level functions. In order to ensure staff in these departments function effectively within the realm of the larger organizational objectives, it is essential that security officers have skills to lead their staff and department teams and individual officers have the required skills and expertise to provide an effective response to implementing successful security.

In order to achieve a consistent level of best practice in security, the officer needs to understand the requirements of the industry, their organization and department, their team, and their security projects.

This comprehensive seminar is designed to equip delegates with skill, knowledge, and ability to perform their duties to international standards and current best practices in security. The course is an opportunity to develop security skills that will enhance any organization or individual officer's ability to handle conflict situations and security solutions. The course is structured to develop knowledge in technical security areas of roles and functions, risk assessment, legislation, health/safety, incident control, and crisis management. This highly interactive and hands-on seminar is designed to empower participants to have an opportunity to learn, understand, and practice techniques that make security work more efficient and effective, therefore creating conditions for productivity.

Course Objectives of Security Officer Development Programme

At the end of the seminar, delegates should be able to:

- Identify best practice and effective policy implementation on leading security solutions
- Effectively operate and interact with a security function
- Identify communication strategies to build more productive communications
- Understand the roles of Security Officer
- Know how to effectively diffuse and deal with conflict
- Understand special risk requirements
- Identify the components of an Improvised Explosive device IED

Course Process of Security Officer Development Programme

The delegates will be involved in the latest trends in seminar presentations. The classroom presentations are made up of interactive practical exercises, supported by audiovisual material and case studies. Delegates will be expected to participate actively in relating the principles of security management to the specific needs for their industry. The final week's module involves delegates in security case studies and actual issues which exist in their organizations. This practical development of skills will benefit delegates who then can return to work ready for the implementation of security measures and plans.

Course Benefits of Security Officer Development Programme

The programme will identify best practices for security roles including the main responsibilities for the security officer, the challenges faced and methods for successfully addressing these issues. Individuals will learn to identify critical success factors and early warning indicators to effectively combat risks before they impact the organisation. This course has a unique feature, a practical, hands-on module of security case studies and work on an actual security issue in the delegate's place of work. This feature allows delegates to learn and practice skills in typical work situations.

Course Results of Security Officer Development Programme

Delegates attending this seminar will:

- Gain an improved personal knowledge of threats and risks to their organization, they will learn skills to combat these threats and put into place standards, plans, and strategies which if successfully implemented will increase their professional reputation and improve their ability to deal with serious security issues.
- Gain an understanding of the strong business reasons why organizations should effectively manage and plan to protect their human and physical resources. This will lead to improvements in their organization's professional reputation, standard operating procedures, and the ability to continue to function effectively and successfully in the face of today's threats.
