Training Course: Handling Information Overload

Training Course code: MA1146 From: 28 October - 1 November 2024 Venue: Kuala Lumpur (Malaysia) - Royale Chulan
Kuala Lumpur Training Course Fees: 5250 € Euro

Introduction

This program can help anyone at any level to improve the speed and effectiveness of their reading for work and for study. It also explains the secrets of super memory systems and shows how mind mapping can be used for better note-making, planning, and communication skills. The program will help you to:

- Read faster and read better combine speed reading with techniques for better comprehension
- Learn how to use mind mapping for planning, note-making, clearer thinking, and better communications
- Learn the secrets of memory systems - and how to use them to remember facts, procedures, names and other information
- Use mind maps to help you remember what you read
- Develop confident, effective approaches to handling information overload at work

Course Objectives of Handling Information Overload

- Read faster and more efficiently
- Tackle reading tasks with more confidence
- Learn the principles behind memory systems
- Develop your ability to memorize and recall information
- Develop note-making skills and learn how to read and use mind maps
- Combine fast reading, mind-mapping, and memory skills to help handle information overload

Course Methodology of Handling Information Overload

This program is enjoyable, practical, and interactive. The techniques are presented in a clear, simple and easy-to-learn way using a mix of an individual experiment, group work and discussion. You will find plenty of opportunities to participate, comment and question - but will never be put under pressure to express opinions. You will be invited to learn at your own speed and to focus on developing your personal skills-set.

Organizational Impact of Handling Information Overload
