## Training Course: Fundamentals of Accounting

Training Course code: FI234897 From: 22 - 26 December 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel  
Training Course Fees: 3500 € Euro

### Introduction

Over the years accounting has evolved and has sprouted into several branches that have become an indispensable part of any business because of its utility. How can a business keep track of financial transactions?

How can the profitability and financial position of a business be calculated? Accounting is the process of systematic recording of financial transactions, classifying them, and reporting them in the manner most useful to the users of financial information.

Some of the most used branches of accounting are financial accounting, cost accounting, and management accounting. With the passage of time and increasing popularity, the field of accounting now presents a plethora of job prospects for management graduates and professionals.

How can financial records be used to make financial projections? How can financial data be presented in a most useful manner? How can accounting be used as a tool in controlling function? All these questions are unriddled through accounting.

Investors and shareholders utilize accounting information to make crucial capital decisions, employees need accounting information to analyze if they are being paid fairly, and managers need accounting information to make decisions regarding costs, expenses, and future courses of action. Various stakeholders put accounting to use to fulfill their diverse information needs.

This Global Horizon training course aims to make its participants not just aware of the fundamentals of accounting but also coach them on how these fundamentals are applicable in their daily life. Any professional seeking to get well-versed in the basics of accounting may opt for this training course.

It provides an introductory window to types, processes, systems, frameworks, and techniques of accounting. It also acts as a refresher course for professionals who have been out of touch with accounting and want to once again get acquainted with the fundamentals of the subject. This course will prove to be the first step for anyone aiming to climb the tall staircase of financial prowess.
