## Training Course: Industrial Hygiene & Occupational Health

Training Course code: HE32546 From: 11 - 15 November 2024 Venue: Casablanca (Morocco) - New Hotel Training Course  
Fees: 4675 € Euro

### Introduction

The health of the workforce is vital to the performance of the organization. This course focuses on an understanding of good industrial hygiene and occupational health, and how this area affects the health and well-being of employees and contractors who are exposed to health hazards in the workplace. Industrial hygiene and occupational health programs play a vital role in helping organizations care for and understand the occupational health risks to their employees, enabling them to protect them and, subsequently reduce sickness absence levels and optimize employee performance.

Industrial hygiene and occupational health are a vital component of an organization's health and safety management system for the effective management of operational risks. The purpose of this course is to provide delegates with the knowledge and understanding of industrial hygiene and occupational health issues and their solutions.

This training course will feature:

- Understanding the importance of Health in "Health & Safety"
- Assessments of risks to health, and the implementation of proportionate control measures
- Information on how work and work activities can adversely affect workers
- Syndicate sessions covering some apparently simple projects, and learning lessons applicable to most organizations
- Embedding Health into the Culture and Policy of an organization

### Course Objectives of Industrial Hygiene & Occupational Health

By the end of this training course, participants will be able to:

- Understand the aspects of industrial hygiene and occupational health
- Appreciate the difference between Health and Safety
- Understand how work can make workers ill and what you can do to change this
- Implement occupational health management and surveillance procedures
- Identify occupational health issues and the relevant risk reduction solutions

### Course Target Audience of Industrial Hygiene & Occupational Health

This course is intended as a solid grounding in the principles of Industrial Hygiene and Occupational Health for people new to this area of responsibility and for those with moderate experience. It is ideally suited to Managers, Supervisors, and Team Leaders.

This training course is suitable for a wide range of professionals but will greatly benefit:

- Industrial Occupational Hygienists who develop and manage health programs
- All managers, supervisors and those who are involved with occupational health

- Production, maintenance, engineers and health, and safety personnel
- All personnel involved in purchasing and managing hazardous substances
