## Training Course: Human Error Analysis & Prevention

Training Course code: HE7022 From: 30 June - 4 July 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel Training Course Fees: 3850 I Euro

### Introduction

Human errors refer to the environmental, organisational and job factors, and human and individual characteristics which influence the behaviour at work in a way which can affect an organisation is health and safety performance. A simple way to view human error is to think about three aspects: the job, the individual and the organisation and how they interact to impact on health and safety-related human behavior.

After an accident involving human failure - using human error analysis tools can identify the causes and contributing human error factors. Establishing these underlying causes of an accident/incident is the key to preventing similar human error accidents/incidents.

This course is aimed at providing delegates with the practical on-site knowledge and skills to develop and successfully implement effective human error analysis techniques.

## Course Objectives of Human Error Analysis & Prevention

#### Participants attending the program will:

- Explain the various human error analysis techniques and how they can be used
- Show how human behavior can lead to human errors and incidents/accidents
- Provide practical ideas and methods for observing and preventing human errors
- Review practical case studies to show how other organizations have used human error analysis techniques to prevent human errors in the workplace

## Course Methodology of Human Error Analysis & Prevention

Delegates will learn by active participation through inspiring presentation tools and interactive techniques presented in a lively, enthusiastic, and interesting style. Delegates will take part in practical human error analysis exercises and group discussions, as related to their own organization<sup>1</sup> s workplace activities.

## Course Outlines of Human Error Analysis & Prevention

#### DAY 1

#### Introduction to Human Error

- What is human error?
- · Understanding the different types of human error
- · Human Error related workplace and job task causation factors
- Human failures in the causes of accidents/incidents
- Exercise: Define human error and prevention objectives

#### DAY 2

#### Human Error Analysis Factors

- Managing Rule-Breaking situations Violations
- · Human behavior patterns leading to human errors
- Cultural behavior and sensory and perception
- Using the Shell IHearts and MindsI toolkit to improve human behavioral factors
- · Exercise: List the different types of human errors and prevention options

#### DAY 3

#### Observation Methods for Unsafe Acts and Conditions

- Using the Dupont [STOP] on-site safety observation tool for
  - Observing Substandard Practices and behavior
  - Observing Substandard Conditions
- Using IJob Safety Analysis to identify and assesses types of human errors
- · Exercise: Identify human errors of presented accident scenario

#### DAY 4

#### Human Error Analysis Techniques

- Analyzing site operations human error situations
- Using the IHuman Reliability Assessment IHRA human error analysis technique
- Human error observation and prevention options
- Options and Solutions for preventing human errors
- Exercise: Using Fault Tree Analysis method to analyze human errors

#### DAY 5

#### Human Error Analysis & Prevention - Getting Started

- Identifying and categorizing human errors in the workplace
- · Considering Human factors when analyzing incidents and accidents
- · Review of Human factors in existing work methods and procedures
- Human error analysis within the health and safety management system
- · Exercise: Checklist for observing human errors in the workplace
- Course Review: Key points summary of course topics
