Kuala Lumpur (Malaysia)
Royale Chulan Kuala Lumpur

Training Course:
National and International Security

Training Course code: SC234913 From: 3 - 7 June 2024 Venue: Kuala Lumpur (Malaysia) - Royale Chulan Kuala Lumpur
Training Course Fees: 5445 Euro

INTRODUCTION

The training course on International Security offers a unique opportunity to dive deeper into the most relevant international security challenges and trends. What does the future hold for European defence cooperation and how relevant is NATO? How does cyberoperations affect international security? If you want to learn more about the answers to these questions and more, this is the right course for you.

Course Overview

This course will provide those involved in international security with a comprehensive understanding of key threats and the international mechanisms and methods to tackle them.

Interactive learning will support participants understanding of the key themes around international security, such as international frameworks and institutions, the importance of intelligence, and border security management. By examining in-depth case studies and evaluating essential tools to improve security, participants will leave equipped to build a strategic action plan to tackle the most pressing security priorities.

A comprehensive analysis of international security will be provided, with subjects to be discussed including:

- Border security aspects of international security

- National Security Strategy and international comparators

- Comparative national security approaches

- The international fight against terrorism and crime networks

- Inter-agency perspectives on delivering a National Security approach

- Auditing and accounting to track financial fraud

- National Security Strategy and international comparators

- The role of new technologies in international security

- Cyber operations

- Intelligence in tackling international security issues

- Air and Space Power in National Security

- Understanding anti-corruption in the field of international security

- Leadership and cross-governmental responses to security challenges

Learning Outcomes

By the end of the course the delegates will be able to:
