# Training Course: Leadership Mastery for Data Science: Developing Technical Leaders

Training Course code: LS234952 From: 20 - 24 October 2024 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel  
Training Course Fees: 3500 € Euro

## Introduction

This customized leadership development program is designed for individuals who have recently taken on a new leadership role as a Principal Data Scientist and Technical Lead. The program will provide participants with the necessary skills and knowledge to effectively lead and manage data science projects and teams.

## Training Program Objectives

- To understand the fundamentals of leadership, including different leadership styles and the characteristics of an effective leader
- To develop effective communication and collaboration skills
- To learn the fundamentals of project management and how to lead and manage data science projects
- To acquire technical skills in data science, machine learning, data visualization, and programming languages
- To apply the concepts and skills learned through case studies and real-world examples
- To receive mentorship and coaching from experienced leaders in the field

## Competencies

- Leadership skills
- Communication and collaboration skills
- Project management skills
- Technical skills in data science and machine learning
- Problem-solving and decision-making skills

## Personal Benefits

- Improved leadership skills and confidence
- Enhanced communication and collaboration skills
- Increased ability to manage and lead data science projects
- Improved technical skills and knowledge
- Increased problem-solving and decision-making abilities
- Opportunities for mentorship and coaching

## Organizational Benefits

- Improved leadership capabilities of data science teams
- Enhanced communication and collaboration within data science teams
- Increased ability to manage and lead data science projects
- Improved technical skills and knowledge of data science teams
- Increased problem-solving and decision-making abilities within data science teams
- Improved alignment of data science initiatives with organizational objectives

## Training Methodologies

- Classroom instruction
- Group activities and discussions
- Case studies and real-world examples
- Mentorship and coaching
- Final project

## Target Audience

- Data Science Team Leads
- Data Science Project Managers
- Data Science Department Heads
- Data Science Managerial staff
- Senior Data Scientists with management responsibilities
- Data Science Managers with Technical Lead responsibilities
- Principal Data Scientists in a Technical Lead role
- Individuals who have recently taken on a new leadership role in a data science team

## Training Outline

### Module 1: Introduction to Leadership

- Overview of leadership styles and their characteristics
- The role of a leader in an organization
- Characteristics of an effective leader
- Self-assessment of leadership skills

### Module 2: Communication and Collaboration

- Importance of effective communication in a leadership role
- Building and maintaining relationships with team members, stakeholders, and other key players in the organization
- Collaboration skills and techniques
- Handling conflicts and difficult situations

### Module 3: Project Management

- Fundamentals of project management
- Planning, execution, monitoring and controlling, and closing phases
- Managing and leading teams and projects effectively
- Problem-solving and decision-making skills

### Module 4: Technical Skills Review

- Data Science methodologies
- Machine learning algorithms and techniques
- Data visualization techniques
- Programming languages and tools used in data science
- Best practices for data management and governance

#### Module 5: Case Studies and Real-World Examples

- Analysis and solving problems using data science techniques
- Leading and managing data science projects
- Group activities and discussions

#### Module 6: Mentorship and Coaching

- Mentorship and coaching from experienced leaders in the field
- Opportunities for participants to ask questions, receive feedback, and learn from the experiences of others

#### Module 7: Final Project

- Leading and managing a data science project from start to finish
- Presentation and evaluation of the final project
