

*Training Course:  
Planning, design and follow-up technical and  
engineering projects*

*5 - 9 May 2024  
Amman (Jordan)  
Chemisty*

## Training Course: Planning, design and follow-up technical and engineering projects

Training Course code: EN624 From: 5 - 9 May 2024 Venue: Amman (Jordan) - Chemisty Training Course Fees: 4200 € Euro

### Introduction:

Organizations that are project-driven are faced with the challenge of effective management of inter-dependent, varied priority, varied value, multi-players, shared-resources, short and long term, multiple-accountability, shared-authority, variable risk level, and dynamic projects. Therefore, it is not enough to deliver get projects. Leaders are now focusing on the effectiveness of whole organizations, and the delivery of a web of changing and interacting projects to achieve the aims of their organizations. This calls for a systematic management approach for the successful delivery of those projects.

### Course Objectives of Planning, design, and follow-up technical

As a result of this course, attendees will be able to:

- Construction Industry: Players, methods of delivery and contracts
- Design Stages and interaction with construction
- Construction Phase: Planning, control, and closing
