Solar Energy System Design*

*27 - 31 October 2024*

*Cairo (Egypt)*

*Holiday Inn & Suites Cairo Maadi, an IHG Hotel*

## Training Course: Solar Energy System Design

Training Course code: EN234720 From: 27 - 31 October 2024 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3900 € Euro

### Introduction

Solar Energy System Design builds upon the introduction to PV systems from Solar Energy Basics course, which included basic system components and functions, as well as some basic system sizing using simplifying assumptions. You should at this point have a basic understanding of electrical power and energy, be able to calculate the energy needs of a site as well as energy production potential for a PV system at a given location under optimal conditions. Much of this course will focus on incorporating on the ground conditions into energy production considerations, and how to account for these conditions in system design and equipment selection. By the end of this course you should be able to incorporate losses in irradiance due to array setups with less than optimal positioning and/or shading, and account for variations in module output due to temperature variations in your system design.

### Course objectives

- ▣ World Energy Scenario, Renewable Energy Technologies, Role of Solar PV,
- ▣ Introduction to Solar Radiation, Optimum orientation of Solar PV modules, Solar related measuring devices
- ▣ Solar PV Electricity, Interconnections of PV Modules, Impact of environmental parameters on module performance
- ▣ Introduction to Battery technologies, Charge controller, MPPT, Solar PV inverters
- ▣ Types of Solar PV systems, Introduction to Solar PV system design
- ▣ Grid Solar PV system design with DC load, Grid Solar PV system design with water pump, Example of Solar Power packs for homes/ industrial applications, Example of Solar Power packs for homes/ industrial applications
- ▣ Design of Grid, Connected Solar PV systems
- ▣ Wires and Cable sizing, Junction Boxes, Combiner Boxes, Fuses.
- ▣ Solar PV system Installation, Monitoring and Trouble Shooting, Introduction to Solar lamps, Solar Products available in the market

### Target Audience

- Electrical engineers
- Project managers
- Professionals who wants to expands their knowledge in PV technologies.

### Course Outline

## Day1

### Following solar energy from source to panel

- The Sun and the Solar Spectrum
- The Sun-Earth Relationship
- The Sun and Atmosphere
- Solar Irradiance
- Finding Solar Insolation
- Using Insolation Data
- Insolation to PV Energy

## Day 2

### PV module and array circuits

- Electricity and Circuits
- The PV Circuit
- Measuring power in a PV circuit
- PV and Electrical Interactions- Efficiencies from cell to array
- Electrical characteristics in PV arrays- Variations in productivity

## Day 3

### PV sizing and output under different conditions

- PV Sizing and Output
- Orientation and Tilt
- Temperature Dependent Output
- Temperature Dependent Output as a Percent
- Measuring Shading at a Site
- Analyzing Shading and Calculating Insolation
- PV Output Reduction Due to Shading

## Day 4

### Grid-tie PV System design under real world conditions

- Residential Site Survey
- Array Sizing and Module Selection
- Inverter Sizing and Selection
- String sizing for the inverter

## Day 5

### Faults conditions and maintenance

- What are the faults that occurs in the PV systems?
- Types of faults and fault analysis
- Maintenance of the PV systems

## Registration form on the Training Course: Solar Energy System Design

**Training Course code:** EN234720 **From:** 27 - 31 October 2024 **Venue:** Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel **Training Course Fees:** 3900 € Euro

Complete & Mail or fax to Global Horizon Training Center (GHTC) at the address given below

### Delegate Information

Full Name (Mr / Ms / Dr / Eng): .....

Position: .....

Telephone / Mobile: .....

Personal E-Mail: .....

Official E-Mail: .....

### Company Information

Company Name: .....

Address: .....

City / Country: .....

### Person Responsible for Training and Development

Full Name (Mr / Ms / Dr / Eng): .....

Position: .....

Telephone / Mobile: .....

Personal E-Mail: .....

Official E-Mail: .....

### Payment Method

- Please find enclosed a cheque made payable to Global Horizon
- Please invoice me
- Please invoice my company

### Easy Ways To Register

Telephone:  
+201095004484 to  
provisionally reserve your  
place.

Fax your completed  
registration  
form to: +20233379764

E-mail to us :  
info@gh4t.com  
or training@gh4t.com

Complete & return the  
booking form with cheque  
to: Global Horizon  
3 Oudai street, Aldouki,  
Giza, Giza Governorate,  
Egypt.
