Training Course: Project Management Skills Essentials for Contractors

Training Course code: PC9423 From: 16 - 20 December 2024 Venue: London (UK) - Landmark Office Space
- Oxford Street Training Course Fees: 5250 € Euro

Introduction

You have new project managers who need to ramp up quickly to deliver successful construction projects. This 5-day course introduces the essential tools of project planning and execution in a construction contracting environment. Participants practice project management techniques on a simple construction project that is developed through the complete project lifecycle, from initial project proposal and definition, through project implementation, and finally to the often neglected project completion phase.

Participants will leave this course with the ability to implement a structured process to successfully deliver small to medium sized construction projects for their organizations and for their customers.

This course is Gold Seal accredited by the Canadian Construction Association.

Course Objectives of Project Management Skills Essentials for Contractors

Participants will gain practical skills to:

- To learn and use the terminology and processes of modern project management.
- To explain meaning of key clauses of CCDC2.
- To identify your PM responsibilities from the start to the close of a project.
- To prepare a complete and accurate project plan for a small project.
- To provide some of the knowledge you need for the Gold Seal Project Manager's certification.
- To increase your own PM "lessons learned" by learning from the experiences of others.
- To value the benefits of a consistent PM methodology.

Who should attend?

The Project Management Essentials for Contractors course is appropriate for individuals who are:

- Construction contractors or employees of construction contracting organizations.
- Responsible for managing small to medium construction projects.
- Active participants on a project team, especially those who have not yet been exposed to

project management, but can see themselves moving in that direction.
