Training Course: Administering Microsoft Endpoint Configuration Manager

Training Course code: IT235383 From: 6 - 10 October 2024 Venue: Dubai (UAE) - Residence Inn by Marriott Sheikh Zayed Road, Dubai Training Course Fees: 4565 € Euro

Introduction

Microsoft Endpoint Configuration Manager is a powerful tool for managing devices and applications in an enterprise environment. This comprehensive training program is designed to equip IT professionals with the knowledge and skills needed to effectively administer Configuration Manager. Through a combination of lectures, hands-on labs, and discussions, participants will gain a deep understanding of Configuration Manager features and best practices for deployment and management.

Objectives

- Understand the key features and capabilities of Microsoft Endpoint Configuration Manager.
- Learn how to install, configure, and maintain Configuration Manager in an enterprise environment.
- Master client deployment and management techniques, including troubleshooting common issues.
- Gain proficiency in application deployment, software updates management, and operating system deployment using Configuration Manager.
- Acquire practical skills through hands-on labs and real-world scenarios.

Target Audience

This training program is ideal for:

- IT administrators responsible for deploying and managing Microsoft Endpoint Configuration Manager in their organizations.
- System engineers or technicians seeking to enhance their skills in endpoint management and administration.
- IT professionals preparing for certification exams related to Microsoft Endpoint Configuration Manager.
- Anyone interested in learning about the latest tools and techniques for managing devices and applications in an enterprise environment.
