Training Course: Advanced Real Estate Development and Management

Training Course code: SC235397 From: 8 - 12 July 2024 Venue: Barcelona (Spain) - Grupotel Gran Via 678 Training Course Fees: 5775 € Euro

Introduction

This advanced training program aims to provide an in-depth understanding of the real estate development process, strategic management, and the integration of modern technologies in property valuation and analytics. Spanning five intensive days, the program covers essential aspects of real estate, equipping participants with practical knowledge and skills to excel in the industry.

Target Audience

- Real Estate Developers
- Property Managers
- Real Estate Investors
- Construction Managers
- Urban Planners
- Financial Analysts in Real Estate
- Real Estate Consultants
- Real Estate Strategists

Objectives

- To provide a comprehensive understanding of the real estate development process and its various stages.
- To equip participants with the skills to conduct feasibility analysis and project planning.
- To teach effective site selection, acquisition, and construction management techniques.
- To enhance strategic planning capabilities for real estate projects.
- To develop expertise in portfolio management, lease negotiations, and property management.
- To explore exit strategies and property disposition.
- To introduce participants to the role of PropTech in real estate valuation and property analytics.
- To address issues related to the cost of capital and income assessment for commercial properties.
