Training Course:
Strategic ERP Implementation and Management for Senior Specialists

Training Course code: SC235576 From: 25 - 29 November 2024 Venue: London (UK) - Landmark Office Space - Oxford Street Training Course Fees: 5775 Euro

Introduction

This program, designed by Global Horizon Training Center, focuses on equipping senior specialists with the knowledge and skills necessary for the strategic implementation and management of Enterprise Resource Planning ERP systems. In today's fast-paced business environment, effective ERP systems are critical for integrating various functions and enhancing organizational efficiency. This training provides participants with advanced insights into ERP strategies, ensuring they can lead successful implementations that align with business objectives and drive sustainable growth.

Objectives

By the end of this program, participants will:

- Understand the strategic role of ERP systems in organizational success.

- Learn best practices for planning and executing ERP implementations.

- Gain insights into change management and user adoption strategies.

- Explore methods for optimizing ERP systems post-implementation.

- Evaluate ERP vendors and solutions effectively.

- Develop a roadmap for continuous improvement in ERP management.

Course Methodology

This course employs a combination of instructional methods to ensure comprehensive learning:

- Interactive lectures and expert presentations

- Case studies highlighting successful ERP implementations

- Group discussions and peer-to-peer learning

- Hands-on workshops for practical application of concepts

- Real-world simulations of ERP decision-making scenarios

- Guest speakers from organizations with successful ERP experiences

Organizational Impact

Organizations will benefit through:

- Improved efficiency and productivity as a result of effective ERP implementations.

- Enhanced ability to respond to market changes with integrated data and processes.

- Stronger alignment between IT and business objectives.

- Increased user satisfaction and engagement through effective change management.

- Development of a culture focused on continuous improvement in ERP practices.

Target Audience

This program is designed for:

- Senior specialists and managers involved in ERP implementation and management.

- IT professionals and business analysts focused on system integration.

- Project managers overseeing ERP projects.

- Business leaders seeking to enhance their ERP knowledge and strategic capabilities.
