## Training Course: Facility Management Program

Training Course code: MA235203 From: 31 March - 4 April 2025 Venue: London (UK) - Landmark Office Space  
- Oxford Street Training Course Fees: 5250 € Euro

### Introduction:

The Facility Management Training Course enables participants to execute and manage all the essential tasks required for facility management. This course focuses on important concepts such as strategic planning, engineering design, maintenance and operation management processes. Participants in this interactive course will learn all the necessary processes and activities for effective facility management, including operational, environmental, contractual, and technical aspects, to equip them with the skills and knowledge needed to make the best decisions for their facilities.

This course relies on individual and group exercises to aid in learning key facility management planning activities. It also incorporates case studies, presentations, and role-playing followed by general discussions.

### Course Objectives

By the end of the course, participants will be able to:

- Explain the fundamentals of facility management.
- Identify key principles and concepts related to facility management.
- Analyze strategic options and make necessary decisions for facility management.
- Acquire knowledge and skills to determine the tools and techniques needed for engineering design and decision-making in automated planning and disaster recovery.
- Recognize the importance of proper maintenance management and facility project management.
- Apply project management techniques to manage large-scale facility tasks.
- Utilize capital budgeting concepts and techniques to ensure the implementation of the best facility decisions.

### Target Audience
