Conference: Process Safety Management Compliance

Conference code: CO8174 From: 31 March - 4 April 2025 Venue: Manchester (UK) - Conference Fees: 6200 € Euro

Introduction

Most Process Organisations have implemented an integrated approach to managing health, safety, and environmental [HSE] risks through an HSE Management System. This program aims to highlight the benefits of such a system and its elements, based on industry best practices. This program is designed to help delegates to demonstrate compliance with the organization's HSE Management System, special focus is on risk management and promoting a positive safety culture. In this program you will learn to:

- Appreciate your role and responsibilities within the HSE Management System
- Enhance your knowledge of elements, sub-elements, and expectations of the HSE- MS
- Gain necessary skills in carrying out a practical risk assessment and incident investigation and analysis
- Develop a plan for promoting a positive safety culture

Objectives

- Describe the company's HSE Management Systems
- How to demonstrate compliance with elements, sub-elements, and expectations of the HSE- MS
- Understand the role of risk management in terms of risk assessment and incident investigation and analysis
- Appreciate the role of human error in risk assessment and contribution to incidents
- To identify weaknesses in the HSE- MS through analysis of root-causes for incidents
- Be familiar with the requirements of HSG65, BS 8800, OHSAS 18000, ISO 9000 and ISO 14000
- Be able to prepare action plans, setting targets and measuring performance
- Appreciate the value of promoting positive safety culture within your organization

Methodology

Participants will learn by active participation during the program through the use of exercises, questionnaire, syndicate, and group discussion, training DVDs, and discussions on [real-life] issues in their organizations.

Summary

The conference aims to a
System. HSE- MS is detailed in terms of elements, sub-elements, and expectations, based on best industry practice. Special focus will be placed on pro-active and reactive risk management elements. The conference will concentrate on enhancing knowledge on risk assessment and incident investigation and issues relating to promoting positive safety culture within the organization
