Training Course: Creative Strategic IT

Training Course code: IT1138 From: 17 - 28 February 2025 Venue: Liverpool (UK) - Training Course Fees: 9240 € Euro

Introduction

This seminar is designed to provide IT leaders and professionals with a set of transformational tools and techniques to help them maximize their own and their team's creative potential. The starting point for this seminar is self-discovery; participants will work on the inside first and then focus outwards onto the world of business.

The initial focus of the seminar will be:

- Preparation to move out of your comfort zone and experiment with new ways of creating and communicating an inspiring leadership vision.
- To define IT strategy and set out techniques for leading an agile IT organization that is customer-centric, makes good strategic management and technical decisions, and leverages IT resources effectively.
- The emphasis on the strategic importance of information services to the enterprise and their contribution as a critical partner in meeting business goals.
- Identifying opportunities for new kinds of thinking and learning to challenge the givens without breaking the bonds
- How to improve your negotiation skills and overcome departmental and organizational obstacles to success

Course Objectives of Creative Strategic IT Leadership

By the end of this program you will be able to:

- Set out their personal leadership brand
- Demonstrate innovative methods for harnessing others' creative potential
- Articulate a vision using multiple sensory representations
- Communicate their vision in refreshing and engaging ways
- Identify critical components of a strategically-aligned IT department
- Apply value and performance measurement techniques
- Develop meaningful recruitment and retention policies
- Evaluate technology solutions, vendor selection, and outsourcing

Training Methodology of Creative Strategic IT Leadership

This seminar will not rely on a series of lectures to tell you what you should be doing. Instead, it uses a range of approaches to learning, including experiential group activities, individual visioning exercises, and syndicate discussions, to allow you to see and feel for yourself the power of the creative mind. Formal inputs are used to introduce a limited amount of underpinning theory. A key part of the learning process is sharing the differing experiences participants bring, as well as experimenting with a novel - and sometimes challenging - techniques.

Organizational Impact of Creative Strategic IT Leadership

- Leaders at all levels who can develop and communicate a shared vision are better able to engage and motivate their teams and can focus on longer-term organizational and customer needs.

- IT professionals who can align IT and corporate strategy are better able to demonstrate the return on investment of their function.
- Delegates develop and implement visionary, innovative and effective IT strategies that support the corporate vision and contribute demonstrably to its success.
- Focus on long-term organizational and customer needs
- Increased effectiveness against personal KPIs through more effective use of team

Personal Impact of Creative Strategic IT Leadership

- Participants will be challenged to explore and articulate a personal vision of the future based on aligned and coherent values within and beyond the boundaries of their professional sphere.
- A clear sense of personal and professional vision of the future
- Aligned and coherent personal values
- Stronger personal self-confidence levels
- Opportunities for networking and sharing ideas will provide a further catalyst for personal growth.
