Training Course: Advancing Human Capital Analytics for Operational Excellence

Training Course code: HR235515 From: 11 - 15 May 2025 Venue: Amman (Jordan) - Chemisty Training Course Fees: 3250 € Euro

Introduction

Human capital analytics is a powerful tool for aligning workforce strategies with organizational goals. This program aims to equip participants with the knowledge and skills necessary to leverage data-driven insights for optimizing talent management, improving productivity, and driving operational excellence. The course will focus on advanced analytics techniques, predictive modeling, and the practical application of these tools in real-world scenarios.

Objectives

- Understand the strategic importance of human capital analytics in driving operational excellence.
- Develop skills in collecting, analyzing, and interpreting human capital data.
- Learn to apply predictive analytics to workforce planning and decision-making.
- Gain insights into the integration of human capital analytics with overall business strategies.
- Explore best practices and case studies in human capital analytics.

Target Audience

- HR professionals and managers
- Data analysts in HR and operations
- Business leaders interested in leveraging data for workforce optimization
- Organizational development professionals
- Anyone involved in strategic decision-making related to human resources
