### INTRODUCTION

In every organization the effective expenditure of enormous sums of money and resources is dependent on successful contract management activities. Selecting the appropriate contracting models and creating and managing formal agreements with suppliers of goods and services requires not only a complete understanding of the business requirements and organization needs, but also depends on keeping up-to-date on contracting. This programme is designed to:

- Explore the advanced practices generally viewed as leading to World-Class performance in contract selection, development and management
- Enable participants to determine where they are now
- Help participants to begin immediate implementation of the steps needed to create maximum total value for their organisation

### PROGRAMME OBJECTIVES

- Be more effective in contract management activities
- Select appropriate type and form of contracts for different situations
- Anticipate problems and manage risks
- Integrate contract management with contract needs
- Understand the best means of handling disputes and performance issues
- Establish terms and conditions for different situations
- Have the latest advances in contract selection and management

### TRAINING METHODOLOGY

The programme will combine conventional teaching with a high level of participation; including an interactive approach to involving participants in discussion of topics; exercises; and encouraging participants to bring their own experiences forward for discussion and debate.

### PROGRAMME SUMMARY

The programme covers the contracting process from tendering and award, through planning and management to close out and resolution of disputes. The intention is to develop general skills with application to a wide range of contractual situations, and to allow participants to have an awareness of practices in other areas and other industries which may add value to their own situations.
