

Training Course: Leadership Mastery for Data Science: Developing Technical Leaders

12 - 16 May 2025 Casablanca (Morocco) New Hotel

Training Course: Leadership Mastery for Data Science: Developing Technical Leaders

Training Course code: LS234952 From: 12 - 16 May 2025 Venue: Casablanca (Morocco) - New Hotel Training Course

Fees: 4250 Euro

Introduction

This customized leadership development program is designed for individuals who have recently taken on a new leadership role as a Principal Data Scientist and Technical Lead. The program will provide participants with the necessary skills and knowledge to effectively lead and manage data science projects and teams.

Training Program Objectives

- To understand the fundamentals of leadership, including different leadership styles and the characteristics of an effective leader
- To develop effective communication and collaboration skills
- To learn the fundamentals of project management and how to lead and manage data science projects
- To acquire technical skills in data science, machine learning, data visualization, and programming languages
- To apply the concepts and skills learned through case studies and real-world examples
- · To receive mentorship and coaching from experienced leaders in the field

Competencies

- · Leadership skills
- · Communication and collaboration skills
- Project management skills
- · Technical skills in data science and machine learning
- Problem-solving and decision-making skills

Personal Benefits

- Improved leadership skills and confidence
- Enhanced communication and collaboration skills
- · Increased ability to manage and lead data science projects
- Improved technical skills and knowledge
- Increased problem-solving and decision-making abilities
- Opportunities for mentorship and coaching

Organizational Benefits

- Improved leadership capabilities of data science teams
- Enhanced communication and collaboration within data science teams
- Increased ability to manage and lead data science projects
- Improved technical skills and knowledge of data science teams
- Increased problem-solving and decision-making abilities within data science teams
- Improved alignment of data science initiatives with organizational objectives

Training Methodologies

- Classroom instruction
- · Group activities and discussions
- · Case studies and real-world examples
- · Mentorship and coaching
- Final project

Target Audience

- Data Science Team Leads
- Data Science Project Managers
- Data Science Department Heads
- Data Science Managerial staff
- · Senior Data Scientists with management responsibilities
- Data Science Managers with Technical Lead responsibilities
- Principal Data Scientists in a Technical Lead role
- Individuals who have recently taken on a new leadership role in a data science team

Training Outline

Module 1: Introduction to Leadership

- · Overview of leadership styles and their characteristics
- The role of a leader in an organization
- · Characteristics of an effective leader
- Self-assessment of leadership skills

Module 2: Communication and Collaboration
