Training Course: The Oxford Financial Excellence Programme

Training Course code: FI2017 From: 21 April - 2 May 2025 Venue: Geneva (Switzerland) - Training Course Fees: 8400 € Euro

Introduction

This seminar provides business professionals with a deeper understanding of financial management as practiced by today's most powerful companies by demystifying the complex world of finance and providing the tools and insights that you will need to meet your own professional goals and the greater goals of the organizations you serve.

The seminar is split into two modules:

MODULE I - Corporate Financial Planning, Budgeting & Control

MODULE II - The Oxford 5-Day MBA in Finance

Each module is structured and can be taken as a stand-alone course; however, delegates will maximize their benefits by taking Module 1 and 2 back-to-back as a two-week seminar.

Course Objectives of Oxford Financial Excellence

By the end of this seminar delegates will be able to:

- Acquire an understanding of the fundamentals of the successful management of corporate financial performance, from the development of strategy through planning and budgeting to performance monitoring and control
- Develop practical experience of the workings of a best practice financial performance management model, and of how to improve corporate financial performance in real-life
- Gain the insights required to win in the global marketplace, for example relating to:
 - interpreting financial statements
 - evaluating financial performance
 - financial forecasting
 - the financing decision
 - determining the cost of capital
 - evaluating investment opportunities
 - managing risk
- Raise financial skills

Training Methodology of Oxford Financial Excellence

Using a combination of seminars, team exercises, and individual exercises, delegates will gain both a theoretical and practical knowledge of the topics covered. The emphasis is on the practical application of the topics and as a result, delegates will return to the workplace with both the ability and the confidence to apply the techniques learned.

There will be a strongly participative, learning-by-doing, style, making extensive use of short case studies both

numeric/ analytical and non-numeric/descriptive and syndicates, as well as open plenary discussion sessions.

Some parts of the course will include short revision/refresher sessions on accounting and DCF basics. Each day will comprise several sessions, introducing new material to build on the learning in the previous sessions.

The seminar manual will include copies of all the material used.

Organizational Impact of Oxford Financial Excellence

- Delegates will develop a set of transferable skills which will improve their powers of financial planning helping the company to increase profit, improve cash flow whilst minimizing costs and risk
- Delegates will not only be able to analyze various business problems but will also be able to evaluate various courses of action and make sound recommendations for action using leading software
- They will become more aware of the importance of effective planning, budgeting and forecasting making the capital budgeting process more cost-effective
- Updating delegates with recent developments in risk management
- Providing exposure to numerous annual reports and real-life cases
- Emphasizing the role of risk in decision making

Personal Impact of Oxford Financial Excellence

- Develop an understanding of today's major issues in international corporate finance and budgeting
- Make improved finance and capital budgeting decisions, which will increase your importance to your organization.
- Be able to identify areas in which they may be able to contribute to improvements in the financial performance of your company which will help improve your career development.
- An ability to utilize sophisticated investment appraisal techniques
- An appreciation of the key items from an annual report and recognition of important ratios and linkages
- Recognition of the appropriate tool to manage risk
