CFM - Certified Facility Manager*

*3 - 7 February 2025
Liverpool (UK)*

Training Course: CFM - Certified Facility Manager

Training Course code: MA234768 From: 3 - 7 February 2025 Venue: Liverpool (UK) - Training Course Fees: 5250 € Euro

Introduction

The Certified Facility Manager® CFM credential sets the industry standard for ensuring the knowledge and competence of practicing facility managers.

The overall aim of this course is to provide participants with the knowledge, skills, and techniques needed to perform all the essential tasks required to manage a facility and to prepare you to be a successful facility manager and to prepare you to undertake the CFM Exam.

The course includes important concepts such as strategic and financial planning, engineering design, automation, and maintenance. Participants in this interactive course will learn all the processes and activities required to manage a facility effectively from different perspectives: operational, environmental, contractual, and technical and to make the optimum decisions for their facilities.

Course Objectives of Certified Facility Manager

- Explain the foundations of facility management
- Analyze strategic options and make decisions necessary to manage the facility
- Utilize environmental and contractual factors in selecting appropriate facility site
- Identify the tools and techniques necessary to develop a facility's engineering layouts and make decisions about automation and disaster recovery planning
- Discover the importance of proper maintenance management and project management of a facility
- Apply project management techniques to manage large size facility tasks
- Use capital budgeting concepts and techniques to ensure implementing the appropriate decisions regarding facilities
