Training Course: HR - Managing the Training Function (Certified Training Manager)

Training Course code: HR3002 From: 16 - 20 June 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 5250 € Euro

Introduction

Recent International developments have seen training elevated in its importance in successful companies. The new task and challenge are to market, run, and produce measurable results through all aspects of training. To do this the Training manager has new skills to master and to be in line with the new requirements of the demands of world-class companies.

This new program is for Training Managers who need to produce measurable results and who want to get the best from their training functions. This program will explain the paradigm shift that has and is taking place in international training and will provide attendees with the skill, knowledge, and confidence to turn any training function into a true powerhouse. You will also find out the new leadership skills needed for future success and their 6 key indicators.

Highlights of this engaging seminar are:

- How to prove training can add value to any organization
- How to master the new skill set needed by training managers
- Master training budgets using different software
- Structure of the training function for maximum efficiency and results
- How to get the best out of people through development & and non-conventional training methods
- How to demonstrate added value and return on training Investment ROI
- Market the training function as a key tool for the organization

Course Objectives of HR - Managing the Training Function

By the end of this seminar delegates will be able to:

- Master the key techniques of managing the new style training function and beyond
- Describe the new role of training and be able to carry out effective marketing within your organization
- Re-examine the design of the training function to establish the most effective department for your organization
- Master budgets and new training software for TNA and financial control - develop a training strategy
- Understand and be able to implement the new "Training Consultant" approach to solve business issues
- Be able to Evaluate any training and be able to explain to others and demonstrate the added value role of Training

Training Methodology

The seminar is run by an acknowledged world authority on innovative training. The seminar is based on a combination of interactive activities - group and individual exercises, case studies, skills practice, and discussions -

along with formal inputs. The environment will be supportive in which individuals with varying degrees of experience will be encouraged to share the approaches they currently use as well as try out new ones that they encounter in the seminar. The expert seminar facilitator will be on hand to answer any questions an individual may have and to act as a facilitator for building and applying new approaches.

Organizational Impact of HR - Managing the Training Function

Impact on the organization from delegates attending this seminar includes:

- A results-focused training function - able to demonstrate financial returns on training investment
- Improved results from training within your business
- New techniques in training strategy that are essential in developing a partnership with internal clients
- The ability to use a new end to end processes
- More focused training and development
- Evaluation of training programs to drive up quality and effectiveness

Personal Impact of HR - Managing the Training Function
