

*Training Course:  
Financial Evaluation and Modeling*

*21 - 25 April 2025  
London (UK)  
Landmark Office Space - Oxford Street*

## Training Course: Financial Evaluation and Modeling

Training Course code: FI234875 From: 21 - 25 April 2025 Venue: London (UK) - Landmark Office Space - Oxford Street  
Training Course Fees: 5250 € Euro

### Introduction

By distilling key information regarding cash flow levels and risks, financial modeling helps decision-makers make informed choices based on data analytics that move their firms forward.

In this training program, learn how to build financial models that can be used in corporate finance, investment banking, commercial banking, and portfolio management. The instructor covers financial statement models, investment banking models, M&A models, buyout models, and DCF models—all using Microsoft Excel.

### Methodologies

Throughout the course, the instructor includes exercises—together with case studies—that can provide you with a practical understanding of these key topics.

### Training Program Objectives

The main goal of financial modeling is to accurately project a company's future financial performance. Modeling can be useful for valuing companies, and determining whether a company should raise capital or grow the business organically or through acquisitions. It equips you with the fundamental knowledge and practical skills needed in Investment Banking, Equity Research, Portfolio Management, Project Finance, Credit Research, Financial Planning & Analysis, etc.

### Training Outlines
