Training Course: Simplification of Work Procedures

Training Course code: PS1036 From: 16 - 20 June 2025 Venue: Casablanca (Morocco) - New Hotel Training Course Fees: 4250 € Euro

Introduction

All business activities are governed by work procedures. Much effort is spent on looking at how to establish and carry out procedures, and, while this is important, it sometimes overshadows the importance of effectively capturing and documenting the optimum method of carrying out the procedure.

This practical course shows how to design, develop, manage, control, implement, and monitor work procedures and associated Management System documents such as work instructions, forms, labels, and tags. It will also show how to analyze and simplify procedures.

Unique features of this seminar:

- Presents a wholistic approach to typical Management System documentation structures, creation, implementation, management, and review
- Focus on the need for clarity and how to achieve it
- Hands-on procedure and other documentation writing
- Explains how to analyze procedures in order to simplify them

Training will involve a high level of interaction and delegate participation. The intention is that the trainer will explain issues, using real examples, but will then involve the delegates in discussion, examples, and workshops, using the information provided.

Course Objectives of Simplification of Work Procedures

- Explain the purpose and advantages of a documented Management System.
- Explain a typical Management System documentation structure.
- Provide an understanding of how management documentation policies, procedures, work instructions, etc are developed.
- Consider who needs to be involved in the process of developing such documentation.
- Explain the sections in each type of document and the purpose and content of each section.
- Show how to write clearly each type of document, with specific emphasis on procedures.
- Show how to use process flowcharts in procedure writing.
- Explain how to analyze process flow charts with the aim of simplifying the procedure.

It will be of benefit to:

- All staff involved in writing procedures or other work process-related documents.
- Those managing the procedure/Management System documentation
- Those involved in auditing work procedures/documentation

Course Benefits of Simplification of Work Procedures

- Increased understanding of the benefits of using procedures

- Knowledge on how to develop an appropriate documented Management System
- Develop authoring skills, which will be useful tools in all types of management system documentation creation, to help ensure concise, accurate, and complete documents.
- Ability to analyze and improve procedures and work instructions
- Understand the importance of managing and auditing the Management System documentation

Course Results of Simplification of Work Procedures

This program will provide you with the skills to enable you to:

- Apply a logical methodology to the structure of work and Management System documentation.
- Expand the expertise of personnel involved in developing simple procedures and other Management System documentation allowing project and general management teams to be more effective.
- Assist in the planning and development of management system documentation.
- Develop and implement common optimal ways of working resulting in increased effectiveness and efficiency.
- Begin to monitor the effective implementation of the Management System.
- Analyze and improve procedures.

Core Competencies of Simplification of Work Procedures

- Understanding the purpose of Management Systems and their documentation
- Developing an appropriate structure of Management System documentation
- Developing effective procedures, policies, and other documentation types
- Evaluating, analyzing and improving Management System documentation

Course Outlines of Simplification of Work Procedures
