## Training Course: Modern Methods of Risk-Based Auditing

Training Course code: FI235088 From: 30 June - 4 July 2025 Venue: Geneva (Switzerland) - Training Course Fees: 5250  
€ Euro

### Introduction

Welcome to the Modern Methods of Risk-Based Auditing Training Program! Risk-based auditing has emerged as a powerful approach in the world of auditing, enabling organizations to focus their resources on areas with the highest inherent risk, thereby enhancing audit efficiency and effectiveness. This comprehensive 5-day training program is designed to equip auditors with the knowledge and skills needed to implement modern risk-based auditing methodologies and elevate their auditing practices to a new level of excellence.

### Methodologies

Throughout the training program, we will explore a combination of interactive learning techniques, practical case studies, group discussions, and hands-on exercises. Our experienced trainers will guide you through the essential concepts and methodologies of risk-based auditing, providing real-world insights and best practices to enhance your understanding and application of the subject matter. We will also leverage technology and data analytics in the risk assessment and audit execution processes, empowering you to adapt to the evolving landscape of auditing practices.

### Target Audience

This training program is ideal for:

1. Internal Auditors: Professionals engaged in internal auditing functions within organizations of various industries seeking to improve their auditing practices and optimize resource allocation.
2. External Auditors: Auditors from public accounting firms aim to refine their risk-based audit approach to provide more value to their clients.
3. Risk Management Professionals: Individuals involved in risk management who wish to understand how risk-based auditing complements and strengthens overall risk management practices.
4. Compliance Officers: Professionals responsible for ensuring compliance with regulations and standards and seeking to implement risk-based auditing for a more targeted compliance approach.

### Objectives

By the end of this training program, participants will be able to:

1. Comprehend the fundamental concepts and principles of risk-based auditing.
2. Understand risk-based and traditional auditing approaches' benefits, challenges, and key differences.
3. Implement effective risk assessment techniques to identify and prioritize auditable entities and areas.

4. Develop risk-based audit plans that align with the organization's objectives and risk appetite.
5. Apply risk-based audit procedures and data analytics to enhance the audit process and evidence gathering.
6. Utilize technology and tools to streamline risk analysis and continuous monitoring.
7. Execute risk-based audits confidently, ensuring better outcomes and actionable recommendations.
8. Communicate audit findings based on risks clearly and effectively to stakeholders.
9. Identify opportunities for continuous improvement and integration of risk-based auditing into the organization's culture.
10. Embrace best practices and address challenges in implementing risk-based auditing effectively.
