

# Conference: Production, Planning, Scheduling and Control

18 - 22 May 2025 Istanbul (Turkey) DoubleTree by Hilton Istanbul Esentepe

# Conference: Production, Planning, Scheduling and Control

Conference code: CO8127 From: 18 - 22 May 2025 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe

Conference Fees: 5775 

Euro

#### Introduction

The effective management of processes is crucial for the production and process-based organizations. Nowadays, if contemporary organizations want to stay competitive, they are urged to think in terms of process-value added to customers/shareholders. Production planning, scheduling activities, and controlling of processes represent essential activities to be performed and monitored by organizations as they implement their key processes, activities, and operations. In addressing these issues, this course is relevant for those professionals & analysts facing the difficult challenge of improving performance while reducing the costs of those processes for which they are accountable. By combining techniques analysis, problems, and examples with a real case study the course provides delegates with key skills, which are essential in managing and controlling processes/projects in times of increasing global competition.

### Conference Outlines of Production, Planning, Scheduling and Control

- Think in terms of process-value added to customers and shareholders
- · Integrate the organization's strategic planning with production planning and scheduling
- Understand the importance of production planning in a wider context of the overall success of the business
- Explore traditional versus innovative production techniques
- Consider the customer relationship with marketing and production

# Conference Process of Production, Planning, Scheduling and Control

We combine theory and practice. Therefore, besides in-class lectures, discussions and exercises, we use company examples to illustrate how the techniques presented have been applied in real case studies.

# Conference Benefits of Production, Planning, Scheduling and Control

- · Gain the ability to think beyond the accepted production planning processes
- Incorporate cost-saving measures into the organization
- Contribute to implement change in the organization.
- Reduce costs in the organization.

# Conference Results of Production, Planning, Scheduling and Control

- · Facilitate the elimination of non-value activities and the reduction of costs within the production process
- Contribute to the achievement of breakthrough improvements in competitiveness
- Contribute to implementing change in the organization.

# Core Competencies of Production, Planning, Scheduling and Control

- · Master techniques for production planning, scheduling and the control of processes
- Be able to identify the right processes to redesign in terms of added-value

Confidently contribute to business process improvement
