Training Course:
Security Management and Risk Analysis

3 - 7 March 2025
Manchester (UK)

Training Course code: HE235282 From: 3 - 7 March 2025 Venue: Manchester (UK) - Training Course Fees: 5775 Euro

Introduction:

Welcome to the Security Management and Risk Analysis Training Program, designed and conducted by Global Horizon Training Center. In an ever-evolving landscape of threats and challenges, organizations need robust security management practices to protect their assets and mitigate risks effectively. This program is tailored to equip participants with the knowledge and skills required to understand, implement, and manage security measures while conducting comprehensive risk analyses.

Objectives:

1. Understand Security Management Fundamentals:

   - Define key concepts and principles of security management.

   - Explore the importance of a proactive security approach.

2. Risk Identification and Assessment:

   - Learn methods for identifying potential risks in organizational contexts.

   - Understand the process of risk assessment and its components.

3. Security Policies and Procedures:

   - Develop insights into the creation and implementation of security policies.

   - Explore best practices in designing effective security procedures.

4. Incident Response and Crisis Management:

   - Learn how to develop an incident response plan.

   - Understand crisis management strategies to mitigate the impact of security incidents.

5. Security Technologies and Tools:

   - Explore various security technologies and tools.

   - Understand how to integrate technology into comprehensive security strategies.

Target Audience:

This program is designed for:

- Security professionals seeking to enhance their skills.

- Risk analysts and managers responsible for assessing and mitigating security risks.

- Managers and decision-makers involved in the development and implementation of security policies.

- Anyone interested in understanding the fundamentals of security management and risk analysis.
