Training Course: ISPS Code Cyber Security Officer

Training Course code: MM235062 From: 27 April - 1 May 2025 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 6300 € Euro

Introduction

The ISPS Code Cyber Security Officer Training course is designed to provide participants with the knowledge and skills they need to effectively manage cybersecurity risks in accordance with the ISPS Code. This course is targeted specifically towards those who are responsible for managing cybersecurity risks in port facilities and vessels, including cybersecurity officers and IT professionals.

Training Program Objectives

By the end of the course, participants will be able to:

- Understand the key cybersecurity threats and risks facing port facilities and vessels
- Conduct a cybersecurity risk assessment and develop a risk management plan
- Develop and implement cybersecurity policies and procedures for port facilities and vessels
- Respond to and manage cybersecurity incidents effectively
- Ensure compliance with the cybersecurity requirements of the ISPS Code
- Understand the importance of international cybersecurity cooperation and information sharing

Target Audience

This course is designed for those who are responsible for managing cybersecurity risks in port facilities and vessels in accordance with the ISPS Code, including cybersecurity officers and IT professionals.

It may also be relevant for port facility security officers PFSOs and other personnel involved in the security of port facilities and vessels. Participants should have a basic understanding of cybersecurity concepts and the ISPS Code.
