Training Course: Understanding of financial analysis

Training Course code: FI2057 From: 19 - 23 January 2025 Venue: Dubai (UAE) - Training Course Fees: 4150 € Euro

Introduction

This seminar brings together important areas of financial management, planning, and control: Financial Analysis, Planning, and Control; Setting & Controlling Budgets. It will help business professionals:

- Plan more effectively for the future
- Use the financial techniques of planning and control
- Improve performance from the use of the tools of financial analysis
- Link planning and budgeting with costing and performance measurement
- Master the skills of budgetary and cost control

Objectives

The seminar provides delegates with the knowledge required to find better answers to questions such as:

- Which specific variables, relationships, and trends are likely to be helpful in analyzing problems?
- How reliable are available financial data, and how are uncertainty and risk likely to impact on the outcomes of decisions?
- In economic and financial analysis what are the implications and relative importance of cash flow as distinct from accounting profit?
- What limitations are inherent in financial data and the key financial statements, and how will these affect the financial analysis?
- How important are qualitative judgments in the context of decision-making?

and to focus on key issues such as:

- Understand strategic planning and budgeting.
- Link finance and operations for budgeting purposes and strategy execution
- Learn how to build a comprehensive performance measurement system
- Learn costing and budgeting terminology used in business

- Understand the importance of a well-defined costing and budgeting process
- Understand cost behavior more accurately
- Be able to perform and interpret variance analysis

Methodology

The seminar includes numerous practical examples and real-life illustrations, and participative exercises and case studies. It will be presented in a very user-friendly way to suit individuals with varying levels of financial knowledge and experience. Our aim is for this to be an enjoyable learning experience. The training methodology combines presentations, discussions, team exercises, and case studies. Delegates will gain both theoretical and practical knowledge of all the topics covered. The emphasis is on the practical application of the topics and as a result, delegates will return to the workplace with both the ability and the confidence to apply the techniques learned.

Personal Impact

This seminar will enable delegates to:

- Broaden their financial knowledge, develop and manage the financial aspects of their role more effectively, and enhance their performance
- Increase their self-confidence in dealing with financial issues and financial professionals.
- Have a better understanding of how financial considerations help to support an organizations' strategic decisions
- Better appreciate how such decisions may affect their own departments or business units, as well as their companies
- Acquire the ability, when involved in decisions about investment, operations, or financing, to choose the most appropriate tools from the wide variety of financial techniques available to provide a quantitative analysis
