Introduction:

Businesses need to create a more inclusive work environment and support workplace diversity. Sometimes that training can become dry and impersonal. To the contrary, Diversity Works is an interactive exploration into diversity awareness that leverages the science of learning to create opportunities for real conversations that matter.

Diversity Works is designed to get adult learners out of their seats and into station-based activities catered to distinct learning preferences, interaction types, and technology options. Part experiential, part social, and part emotional, the Diversity Works learning style model encourages learners to explore and absorb new ideas around inclusivity and diversity.
