

*Training Course:  
Certified in Production and Inventory  
Management (CPIM)*

*16 - 20 June 2025  
Baku (Azerbaijan)*

## Training Course: Certified in Production and Inventory Management (CPIM)

Training Course code: MA235163 From: 16 - 20 June 2025 Venue: Baku (Azerbaijan) - Training Course Fees: 5250 € Euro

### Introduction

The CPIM Certified in Production and Inventory Management training program is designed and delivered by Global Horizon Training Center, a leading provider of professional development and certification courses in supply chain and operations management. This comprehensive program is aimed at equipping participants with the knowledge and skills necessary to excel in the field of production and inventory management.

### Objectives

The primary objectives of the CPIM training program are as follows:

- Provide participants with a deep understanding of production and inventory management concepts.
- Prepare participants for the CPIM certification exams administered by APICS The Association for Supply Chain Management.
- Enhance participants' ability to optimize production and inventory processes, leading to improved organizational efficiency.
- Equip participants with the latest industry best practices and tools for effective supply chain management.

### Methodology

Our CPIM training program employs a blended learning approach, combining the following methods:

- **Interactive Lectures:** Engaging lectures delivered by experienced industry professionals.
- **Case Studies:** Real-world scenarios and case studies to apply theoretical knowledge.
- **Group Discussions:** Collaborative learning through group discussions and peer-to-peer interaction.
- **Hands-on Exercises:** Practical exercises and simulations to reinforce learning.

### Target Audience

The CPIM training program is designed for professionals, including but not limited to:

- Supply Chain Managers
- Inventory Managers
- Production Managers
- Operations Managers
- Procurement Professionals
- Logistics Managers
- Anyone aspiring to gain expertise in production and inventory management
