Training Course: Mastering Advanced Negotiation and Influence Strategies

Training Course code: LS235622 From: 24 - 28 February 2025 Venue: Bangkok (Thailand) - Training Course Fees: 5950 € Euro

Introduction

In today's fast-paced, high-stakes business environment, new opportunities may present themselves at any moment, and executives must be prepared to negotiate. Effective negotiation skills can make the difference between a favorable or detrimental outcome for your organization. In this program, you'll learn how to negotiate with influence to achieve more value while maximizing the benefits for your organization.

"Typically, we think of negotiations in the dramatic context of the highest-stakes situations: geopolitical conflicts, corporate acquisitions, or large monetary deals. While negotiations are critical in those instances, we often don't realize that even our most routine daily interactions are negotiations," says Professor John Burrows, the program's Faculty Director.

Course Objectives

- Gain advanced strategies to negotiate with influence and prepare for success.
- Explore your individual negotiation style and how hidden psychological biases may shape outcomes.
- Learn how cultural and cross-border differences can influence negotiations significantly.
- Understand different strategic choices and interpersonal skills that drive success to create win-win scenarios.

Target Audience

This program is ideal for early and mid-career executives who want to sharpen their negotiation skills for career and organizational growth. Professionals from corporations, associations, nonprofits, startups, and public sector organizations will find this program beneficial.
