## Training Course: International Accounting and Financial Standards for Non-Profit Organizations

Training Course code: FI235165 From: 17 - 21 February 2025 Venue: Kuala Lumpur (Malaysia) - Royale Chulan Kuala Lumpur Training Course Fees: 5250 € Euro

### Introduction:

Effective risk management is of paramount importance in the current business environment. This course will enhance your understanding of risks and how to minimize a business's exposure to them. Its goal is to develop your skills in analyzing business activities. It will serve as a guide and assist you through the key steps of financial data analysis, evaluating new investments, and measuring performance at all levels of your organization. Additionally, it will help you enhance your abilities in generating growth, improving profitability, and identifying problem areas for corrective action.

### Program Objectives:

By the end of this training program, participants will be able to:

- Acquire a set of knowledge related to the new International Financial Reporting Standards IFRS.
- Develop skills in designing financial statements.
- Gain insight into professional issues related to the implementation of certain accounting standards.
- Understand the impact of these standards on international and Arabic business environments.
- Acquire skills in using and benefiting from financial reports through critical analysis, enabling assessment of the financial strength of organizations and contributing to managerial decision-making.

### Competencies:

- Understanding basic accounting concepts.
- Ability to apply international accounting and financial standards.
- Capacity to analyze and comprehend financial reports.

### Target Audience:

- Financial department managers.
- Financial consultants.
- Accountants and financial management professionals.
- Internal and external auditors.

- Professionals responsible for monitoring and collecting customer accounts.
- Financial planning and budgeting personnel.
- Credit analysis professionals in banks or those involved in financial data analysis.
- Anyone seeking to enhance their skills and experience and sees the need for this course.
