## Training Course: Strategic Financial Planning: Shaping the Financial Future of Major Institutions

Training Course code: SC235502 From: 28 April - 2 May 2025 Venue: Trabzon (Turkey) - Training Course Fees: 5775 € Euro

### Introduction:

In today's fast-paced, volatile financial landscape, major institutions must be equipped with a robust strategic financial planning framework that not only responds to current challenges but also anticipates future shifts. This training program is meticulously designed to offer financial executives, senior managers, and strategic planners the comprehensive skills necessary to lead their organizations toward sustained financial success and stability.

Strategic financial planning goes beyond day-to-day financial management, encompassing long-term financial forecasting, risk mitigation, and the integration of financial decisions into the broader strategic vision of the institution. This program will dive deep into methodologies for evaluating financial performance, constructing viable financial forecasts, and creating financial strategies that align with institutional objectives.

Participants will explore the complex relationship between financial planning and organizational growth, learning how to assess external economic influences, optimize resource allocation, and safeguard financial health. Through real-world case studies, interactive workshops, and scenario planning exercises, participants will gain a practical understanding of how to make informed financial decisions, manage institutional risks, and drive long-term value creation.

Ultimately, this program is designed to empower financial leaders to make confident, data-driven decisions that shape the financial future of their organizations, ensuring resilience, adaptability, and continuous growth in an ever-evolving economic environment.
