Landmark Office Space - Oxford Street*

Training Course: Microsoft Project 2016

Training Course code: IT235237 From: 16 - 20 June 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 5775 € Euro

Introduction

Microsoft Project 2016 is a powerful project management tool that allows you to plan, execute, and monitor projects effectively. Whether you're new to project management or seeking to enhance your skills with this software, our 5-day training program is designed to provide you with the essential knowledge and skills needed to navigate and utilize Microsoft Project 2016 proficiently. This program is structured to help you master the fundamental concepts and features of the software so that you can effectively plan and manage projects with confidence.

Objectives

By the end of this training program, participants will be able to:

- Navigate the Microsoft Project 2016 interface and understand its key components.
- Create, manage, and customize project plans according to specific project requirements.
- Establish task dependencies, constraints, and project timelines.
- Effectively manage project resources, allocate tasks, and resolve overallocation issues.
- Set project baselines, track project progress, and generate reports.
- Customize views, tables, and reports to suit project needs.
- Integrate Microsoft Project with other Office applications for enhanced collaboration.
- Apply best practices and tips for successful project management using Microsoft Project 2016.

Target Audience

This training program is designed for a diverse audience, including:

- Project Managers and Team Leaders: Seeking to enhance their project management skills and effectively use Microsoft Project 2016 to plan and track projects.
- Business Professionals: Looking to learn how to create and manage project plans for various tasks and initiatives.
- Entry-Level Project Managers: Eager to develop a strong foundation in project management principles and the use of Microsoft Project 2016.
- Team Members: Who play a role in project execution and want to understand how to work within a project managed with Microsoft Project.
- Anyone Interested in Project Management: Individuals who want to explore the world of project management and how software tools like Microsoft Project can assist in project planning and execution.
