Training Course: Macroeconomic Analysis

Training Course code: FI234794 From: 12 - 16 May 2025 Venue: Kuala Lumpur (Malaysia) - Royale Chulan Kuala Lumpur
Training Course Fees: 5250 € Euro

Introduction

Determinants of the level of aggregate demand. General equilibrium of product, money, and labor markets. International macroeconomic relationships. Fundamentals of the economic growth process and income distribution.

The main objective of this course is to enhance participants' understanding of macroeconomic policy using a model-based approach. The course builds on the intermediate macroeconomics course and develops analytical skills that allow participants to analyze inflation and unemployment issues, long-term economic growth; and design stabilization policies in open and closed economies.

Course Objectives

On successful completion of this course, participants are expected to demonstrate the ability:

- Review of FDI.
- The Components of FDI and their interactions.
- Merger and Acquisitions.
- To use and synthesize the above concepts independently
- To describe and analyze the current macroeconomic issues relating to FDI, Multinational corporations, and Global Value Chains.
- To speak and write essays about the current macroeconomic issues.

Training Methodologies

This 5-day intensive training course uses a mix of interactive techniques to ensure maximum understanding, comprehension, and retention of the information presented. This includes evaluation of case studies, brief presentations by the instructor, group exercises, and discussion followed by participants' presentations of the results.

Target Audience

- Finance professionals
