Training Course: Cash and investment management

Training Course code: FI234993 From: 28 April - 2 May 2025 Venue: Casablanca (Morocco) - New Hotel Training Course
Fees: 4250 € Euro

Introduction

Cash and investment management is vital for companies and individuals alike. These skills represent the essential skills for managing financial resources in an efficient and integrated manner. If cash is managed properly and efficiently, companies can avoid liquidity problems and ensure that cash is available at the right time to meet financial needs. While optimal investment management allows for achieving the desired returns, taking into account the risks associated with investments.

The training program in cash management and optimal investment of financial resources aims to provide participants with the basic skills and knowledge necessary to effectively manage financial resources, improve the use of capital and achieve investment goals.

objectives

This training program aims to provide participants with the knowledge and skills necessary to manage cash and investment effectively and optimally and to learn about the tools and techniques necessary to analyze and manage risks associated with financial investments.

The program also aims to:

- Introducing the participants to the concepts of cash and investment management and its importance to individuals and companies.
- Determine the various financial and investment assets and how to analyze and evaluate them.
- Teach participants how to choose the right liquidity and manage it effectively.
- Enable participants to analyze financial data and determine appropriate risk levels for investments.
- Providing the necessary knowledge and skills to manage the risks associated with various investments.
- Introducing the participants to the available investment tools and how to analyze and evaluate them.
- Enabling participants to manage a portfolio of financial investments
